Like this games graphics and music. Enjoy the bat ball genre, good game!. Dumb. Not very fun. Most of the decisions aren't very clear, and I wasn't sure what was going on most of the time.

Asked for a refund after about 30 mins.. brooo the ending is so sad :(I still plow through nakazawa's bois tho, hope they make a sequel.. it's fun, has a great idea, but the mouse curser is a lot bigger than it normally it is wich makes it harder, but not by that much

9/10 would point again. Pierhead Arcade has been well thought out and enables my inner-child with the built in Rainwave support it makes it even better!! (Rob from rainwave was rather happy that you guys use rainwave and would love you to stop by the IRC channel on SynNet to talk to him about it!)

The arcade games are second to none, a lot of attention to detail and if you really want to you could implement this game into your workout cycle!! Always looking forward to new games here! Plen

The only gripe I have is how hard it seems to get Multiplayer working as i've never been able to get it working correctly :(

9/10 (If you get multiplayer working i'll give this a 10)

Another skin pack for FortressCraft. Why not?. Kinda like a app but still a good game for 50 cents.. Simple, Fun, Interesting, and a little bit reptitive. It doesn't take long to learn. Having friends to play with make it a much more exciting experience. Try and see how far you can get.. Not worth this price, but the bots play extremely well.

The single player experience was pretty good even if it is on rails, those first moments when you move your arms and the mechs arms follow your movement in particular was amazing and really sold the feeling of being the pilot of a giant mech.

The game really shines in multiplayer though, the free movement makes a huge difference and the mechs vary from lighter nimble classes to slower hulking behemoths. A nice touch is the ability to juggle power to different systems to increase shields/weapons/speed/energy to customise your mech to suit your tastes. Controls are relatively simple and within 3/4 games I'd gotten the hang of the basics and was able to compete somewhat competently. The maps are pretty few at this stage but they're complex enough to make various strategies viable and very well designed.

What's harder to describe is how awesome 2v2 battles are. I've been playing since the first Mechwarrior games and this is absolutely the closest feeling to piloting one of those you can have today.

I highly recommend the game mainly due to the multiplayer.. Takes to long for a day to pass and unable to get any of the food for the animals to feed them so no animals can be fed and no missions can be completed. Gauntlet of IRE might seem like another Twitch-grabbing frustration game, and in a way it is, but this simplification does great disservice to the amount of polish and creativity on offer here. Most games of this type usually just put an invisible barrier wherever, thinking that this would put them square in the Kaizo territory, without realizing that there is more - and should be more - to a game than that.

In this game you simply have to deliver the ball to the other side of the track, but what seems an easy feat at first quickly becomes an increasingly harder challenge that throws curveball after curveball at you. What I appreciate a lot is that despite the game being balls hard, it also goes to great lengths to mess with you in the strangest ways possible. It becomes quite a memorable and, yes, irksome experience.

Don't let this one slip through the cracks!. Claims to support keyboard and mouse but it doesn't. Although I can move around I am always moving in the same directions. Moving my head points me at something but pressing "W" to move forward moves me relative to me start position.. From MST3K to the Big Silver Screen at AMC or any other Movie Theater, YDKJ Movies is a pretty good CD-ROM Cinema Triva/Digital Download Game. Don't forget the Popcorn, Candy & Snacks before you take your seat in your Local Movie Theaters, New Releases or Classic Movies.. This is an interesting game. It reminds me in some ways of a game I played awhile back. I think it was called Cradle of Rome. Anyway, you build stuff with money you get from completing Match-3 (and other) puzzles.

Can be quite enrapturing.. gretat movie and you cant beat a backup of almost the whole sieries for 20.00 on sale. steam video player also works fanastic for me hasnt buffered a single time through multiple movies and series
