mability?pn=true&new=true&psc=1\_1&authpad=00E800005f7704354505b094d6bc6...' } ] } search({ "query": { "match" : { "userId" : "userID" } } }) { "aliases": {}, "parsedQuery": { "bool": { "must": [ { "match": { "userId" : "userID" } } ] } }, "matchedQueries": [ { "terms": { "score.shard": "userId.min", "userId.min": { "value": "userID", "boost": 10 } }, "boost": 10 I'm able to query the userID field as a range or exact match. I can even query the userId and just return the userId.min property, but I'd like to query the entire document for all users with the minimum id, but I can't figure out how. What I have above results in only the minimum ID being returned. I'd like to do the equivalent of... POST /example\_index/user { "name": "john", "userId": "userID" } "name": "mary", "name": "joe", 82157476af
